EDUCATION

• National Institute of Technology, Silchar <i>B.Tech in Electrical Engineering; CGPA: 7.72</i>	Assam, India 2023 – 2027
• Jamuni Lal College, Hajipur <i>HSC ; Percentage: 70%</i>	Bihar, India 2021 – 2023
• St. John's Academy, Hajipur <i>SSC ; Percentage: 91.6%</i>	Bihar, India 2011 – 2021

PROJECTS

• Esports Club Website – NIT Silchar ↗ <i>Team Project</i>	Live Project Nov 2025 – Present
• Finverse — AI Stock Research & Analytics Platform ↗ <i>Personal Project</i>	Remote Apr 2026 – Jun 2026
• CampusVerse – Full-Stack Campus Networking Platform ↗ <i>Personal Project</i>	Remote Jan 2026 – Feb 2026

- Spearheaded development of the official esports management platform for NIT Silchar, facilitating registration, event scheduling, and tournament administration for over 1,000 students and faculty.
- Designed a responsive user interface using React and shadcn/ui, achieving a 90% increase in user engagement on mobile devices and a 60% reduction in page load times.
- Architected robust backend services utilizing NodeJS, ExpressJS, and Supabase to manage authentication and real-time data, resulting in a 30% reduction of database query processing time across the platform.
- Integrated Cashfree payment gateway into the esports platform, securely processing over 100 daily transactions and enabling seamless online payments for tournaments and events.
- Built an AI-powered equity research assistant using Google Gemini API and Retrieval-Augmented Generation (RAG), generating data-grounded investment reports and improving answer relevance by 35% (MRR 0.77).
- Engineered a hybrid search pipeline combining semantic embeddings (ChromaDB) with lexical retrieval and RRF fusion, and applied NLP sentiment analysis on real-time NSE & Moneycontrol news to power buy/sell signals.
- Created a responsive dashboard using React, and Recharts to visualize technicals and financials in real time.
- Engineered and deployed a scalable full-stack social networking platform using React, Node.js, Express, and MongoDB with JWT authentication, connection workflows, and real-time chat via Socket.IO achieving sub-200ms latency.
- Architected production infrastructure on AWS EC2 with Nginx and PM2, ensuring high availability, secure API routing, and zero-downtime backend restarts.
- Implemented CI/CD pipelines using GitHub Actions, eliminating manual deployments and reducing release time by 70%, while maintaining sub-300ms API response times.

SKILLS

- **Languages:** C++, C, JavaScript, Python, SQL
- **Core CS Concepts:** DSA, DBMS, OOPS, OS
- **Machine Learning:** LLMs, RAG, NLP, Prompt Engineering, Embeddings, FAISS, NumPy, Pandas, Matplotlib
- **Frameworks & Tools:** ReactJS, NodeJS, ExpressJS, NextJS, Tailwind CSS, SQL, MongoDB, Git, GitHub

POSITIONS OF RESPONSIBILITY

• NIT Silchar Esports Club <i>Founding Member & Event Management Head</i>	Onsite Sep 2025 – Present
• Finance & Investment Club, NIT Silchar <i>Executive, Technical Team</i>	Onsite Aug 2024 – Present

CERTIFICATIONS

- **Machine Learning Specialization (Kaggle)** Covered supervised learning, model evaluation, and practical ML workflows.
- **Pandas (Kaggle)** Worked with data manipulation, cleaning, aggregation, and analysis using Python Pandas library.
- **Feature Engineering (Kaggle)** Applied encoding, handling missing data, and feature creation to improve performance.
- **AWS Cloud Practitioner (CLF-C02)** Gained foundational knowledge of AWS services, global infrastructure, security, billing, and cloud architecture principles.

HONORS AND AWARDS

- Solved 500+ algorithm problems on LeetCode and GeeksforGeeks, with 350+ medium and 250+ hard problems.
- Finalist in **TechM Code 2026**, demonstrating problem-solving in a national-level hackathon competition.
- LeetCode Achievements Ranked in top 1.1% globally (327/30,708) in a Weekly Contest; attained Knight rating

OTHER INTERESTS/EXTRACURRICULAR ACTIVITIES

- Actively involved in cricket, fostering teamwork, discipline, and strategic thinking.
- Contributed to college fests as a core member, promotions, and event coordination.
